

EDITORIAL COMMENTS.

The corn crop will be one of the finest ever raised.

About 75 or 80 prohibition counties went for Stanley.

Several pairs of pants were badly torn in Saturday's election.

Stanley's vote is 10,000 to 15,000 more than that of both of his opponents.

The slickest machine politicians in Kentucky for once slipped up in their own grease.

Gus Thomas had a runaway race for judge of the court of appeals, with 5,000 majority over Nunn.

With no issues except political principles dividing the parties, Stanley will beat Morrow 50,000 votes.

Four Hopkinsville preachers failed to get in a vote. Two were away from home and two forgot to register.

Gov. McCreary has gone to Atlantic City leaving Lieut.-Gov. McDermott in the executive office at Frankfort.

Emma Goldman, anarchist lecturer, was arrested Saturday and warned not to make any more addresses in Portland, Ore.

Since they got into Russian territory, the German soldiers are, according to a Berlin dispatch, eating three square meals a day.

Senator B. F. Shiveley, of Indiana, who has been ill for several months in a New York hospital with an affection of the throat, is said to be now on the road to complete recovery.

Arthur M. Wallace, one of the nominees for judge in Louisville, is a Christian county boy who has made good in the metropolis. He is a brother of Thos. H. Wallace, of Clarksville.

On the issue of State-wide, shown by the combined votes of Stanley and McDermott, the adverse majority is about 60,000. The Democrats evidently want to talk about business for awhile.

The Courier-Journal fell down on its election reports for Sunday. The reports of both the Owensboro Messenger and the Owensboro Inquirer made the Courier-Journal's election news look like thirty cents.

The Supreme Court of Tennessee set aside the receivership for Nashville ordered by the lower court, affirmed the suspension of Mayor Howse and Commissioner Elliott and disapproved that of Commissioner Alexander.

Carranza has consented to come down off his high horse and talk about peace. This means that the Mexican situation is decidedly more hopeful, as Carranza has been the bull-headed one among the leaders of the warring factions.

Ranger After Mexicans.

Brownsville, Texas, Aug. 9.—Mexican outlaws and Texas rangers and county officials were engaged in two battles to-night near Norias, Texas, 60 miles north of Brownsville, according to reports received here. The telegraph operator at Norias has sent out a call for help.

The clash occurred at 6:30 and 8:30 o'clock last night, it is said. Results of the fight are not yet known here. A special train which left here for Norias late to-day with rangers and county officers, returned here to night and ten minutes later started back to Norias. It will stop at Harlingen to take on a detachment of United States soldiers.

Death of Child.

James Leslie, the twenty-months-old son of William L. Haddock, of the Brent's Shop precinct, died Aug. 6 of ileo colitis. The interment took place near Sinking Fork Saturday.

JITNEY BUS LINE NEXT FOR CITY

Council Authorized It To Be Started on Conditions Asked.

DR. J. E. BELL PROMOTING IT

Tarvia Street Ordered on Seventh Street To Cost 2,500.

The Council met in regular session Friday night and transacted some important business. The principal item was the second passage of the ordinance asked for by Dr. J. E. Bell, who proposes to start a jitney bus line on specified routes in the city. The license fee is \$50 for five cars or less.

The Odd Fellows committee notified the Council that that order had decided not to avail itself of the privilege to give a carnival in the city.

The improvement of the ally known as Woodard's alley, in rear of the City Bank, was ordered concreted.

An appropriation of \$2,500 was made to construct a tarvia street on West Seventh Street from Water Street to Jesup Avenue, all to be paid by the city. The cost is estimated at 50 to 55 cents a square yard as compared with 75 cents paid by the city and 75 cents by property owners for the permanent bitulithic streets put down in 1912, and guaranteed for five years.

Concrete workmen who do not use the streets were given permission to take out license without giving the bond required by those who put materials in the street.

The Latham poor fund balance of \$478.50 was turned over to the Associated charities.

World's Biggest Ox.

Schwerin, Germany, Aug. 9.—"Sultan," the biggest ox in the world, has been brought here for slaughter. He was exhibited at all the big cattle fairs in Germany. He is a giant of flesh and bone, just a fraction of an inch under 6 feet, 10 inches in height, and weighs 4,198 pounds. He is pure white and bred from a zebu or Indian bull.

BIG BUNCH OF BOOSTERS

Went To Cadiz Yesterday To Talk About Good Roads.

Seven automobiles left Hopkinsville yesterday for Cadiz decorated with flags and banners and filled with boosters for good roads.

In the party were the cars of Jno. J. Metcalfe, B. G. Rhodes, E. E. Cooper, Richard Leavell, A. D. Noe and W. R. Hammond. The boosters in the cars were County Judge Walter Knight, R. E. Cooper, C. R. Clark, W. R. Howell, J. J. Metcalfe, T. J. Baugh, Gip Watkins, Geo. W. Crenshaw, Richard Leavell, A. D. Noe, Sr., A. D. Noe, Jr., H. C. Locket, W. A. Wilson, J. W. Hancock, G. E. Dalton, J. M. Morris, B. G. Rhodes, W. R. Hammond and several others who went with Mr. Hammond early.

They were expecting to have a meeting, the object being to induce the fiscal court to improve the pike connecting at the Christian county line with the proposed Dixie Bee Line Highway, the pike to be a part of the Jefferson Davis Highway from Hopkinsville to Canton.

Goes to Mississippi.

Baylor Abernathy has again been promoted by the American Express Co., this time to the position of agent at Rosedale, Miss. He is the oldest son of Mr. H. H. Abernathy and is a very promising young man, who has been with this company in different capacities for several years.

STANLEY WINS BY 40,000

His Majority Over Both His Opponents Will Not Be Less Than 15,000—Carried Every District in The State Except The Fifth And Carried That By 5,000

Over McChesney.

GUS THOMAS HAS RUNAWAY RACE FOR JUDGE

Edwards Leads Black For Lieutenant Governor And Greene, Goodpaster And Cohen Now Appear To Be Winners.

Louisville, Ky., Aug. 9.—Sweeping the State from one end to the other Augustus Owsley Stanley was Saturday nominated by the Democratic party as its candidate for Governor, the voters rolling up a majority for the Henderson man that may go over 40,000. Harry V. McChesney furnished what little contention there was in the race and Lieut. Gov. Edward J. McDermott brought up the rear, showing practically no strength except in Louisville.

Stanley's victory was so overwhelming that it was apparent after returns were received from the first few counties that it was only a question of how large his plurality would be.

On the Republican side Edwin P. Morrow, of Somerset, won an equally hollow victory, his only opponent, Latt McLaughlin, getting but a scattering vote. The vote in the Republican half of the primary was very light and but little interest was manifested.

James D. Black, of Barbourville, is behind James P. Edwards, of Louisville, for the Democratic nomination as lieutenant governor by 3,000 votes.

For railroad commissioner in the second district, Sid Douthitt, of Newcastle appears to have defeated William F. Klair, of Lexington by a small vote. The contest for Secretary of state is close, with Barksdale Hamlett, of Frankfort, having a slight advantage over his opponent, Charles W. Milliken of Louisville.

In the race for Auditor, Treasurer, Clerk of the Court of Appeals and Superintendent of Public Instruction the vote is close, but Goodpaster for Treasurer and Greene for Auditor are leading. Matt Cohen, the noted horseman, has a substantial lead for Commissioner of Agriculture and is an easy winner over H. M. Froman.

STATEMENT BY STANLEY.

In a statement issued by A. O. Stanley he said:

"In this last primary the democratic party of Kentucky made a choice not so much between men as measures. The issue which the democracy of Kentucky was called upon to decide was simple and sharply drawn—namely, whether it would continue to maintain the principle of local option and local self-government, or try the experiment of state-wide prohibition. It was, in its essence, a referendum to the people. After a campaign of education, thorough and elaborate, and after discussion of this subject in every county in the state, the people have rendered their decision, and have definitely determined, as I interpret the returns from the primary, to reaffirm the position taken in 1911 and to maintain the county unit law as it is now written.

"Hoping that this question may be eliminated from politics, and that we may begin now to seriously consider grave and pressing matters, I take this occasion again to assure the people of Kentucky that if elected governor I shall exert all the power vested in me to prevent its future agitation and to maintain intact and without change or amendment the county unit law as now enacted.

REPUBLICAN CONTEST.

In the republican contests returns received indicate that the outcome of only two of the races are in doubt, that of treasurer, in which William Hunter, of Louisville, Thomas Wallace, of Irvine and R. L. Moore, of Marion are seeking the nomination. The selection of Hunter is indicated.

For appellate clerkship nomination, Earl C. Huntsman, of Scottsville and Lawrence McCoy, of Jack-

HON. A. O. STANLEY
Nominated for Governor of Kentucky.

son are running close together.

Nomination for the other offices follow:

Lieut.-Governor—Lewis L. Walker, of Lancaster; Secretary of State—James T. Lewis, of Whitesburg; Attorney General—T. B. McGregor, of Frankfort, (no contest); Superintendent of Public Instructions—R. P. Green, of Bowling Green, (no contest); Commissioner of Agriculture—W. C. Hanna, of Shelbyville.

VOTE BY DISTRICTS ON GOVERNOR'S RACE.

Following is the recapitulation by districts on the Governor's race:

Stanley, McChesney, McDermott.

First.....10212 9288 987

Second.....13000 6096 1479

Third.....8507 2834 355

Fourth.....8637 5248 1978

Fifth.....7991 1800 10998

Sixth.....10474 3090 3271

Seventh.....11591 7415 2812

Eighth.....7928 6154 857

Ninth.....6034 5477 619

Tenth.....1078 500 410

Eleventh....1040 484 139

Totals....90322 50739 22864

The Fifth District gave McDermott 10,998, Stanley 7,991 and McChesney 1,800.

Sam V. Dixon beat Jno. L. Dorsey for circuit judge in the Henderson county and in every county of the district.

Judge Birkhead was re-elected in the Owensboro district and Ben, D. Ringo beat Lawrence Tanner for Commonwealth's Attorney.

Denny P. Smith was re-elected for a third term by a very large majority, estimated at 1500 majority over Jas. B. Allensworth. He carried Christian by 328, Trigg by 700, Calloway by 307 and Lyon by 131.

Judge Bunk Gardner was nominated for circuit judge in the Mayfield district.

Baker, of Caldwell, defeated Ruby Lafoon and Ed Young for Commonwealth's Attorney in the Hopkins county district.

The Columbia river of Canada is 1,400 miles in length; the stream of the same name in Oregon is 600.

PLATFORM CONVENTION TO BE QUIET AFFAIR

Stated That McChesney Will Make No Fight For Plank Favoring Submission.

Frankfort, Ky., Aug. 9.—The Democratic State platform convention, which probably will be called this month, promises to be a quiet party affair, with no factional friction, especially over the liquor question.

It was ascertained today authoritatively, though no one would assume the responsibility to speak for anyone other than himself, that the McChesney organization will make no fight for a plank favoring submission of a State-wide amendment, and so far as could be learned there is no other question dividing the party. The convention, it is expected, will be devoted to consideration of how the party and the ticket can put the best foot forward in the November election campaign.

It seems to be tacitly agreed among politicians of both sides that the primary settled the liquor question so far as the Democratic party is concerned this year, and Mr. Stanley will be untrammelled in the matter of committing the party on such subjects as he considers of paramount importance in the campaign.

In the Russellville district Judge Jno. Rhea loses to Standard, of Todd, by a close vote. He got 500 in Logan and 400 in Simpson, while Standard carried Todd and Muhlenberg by 1013.

Judge Bunk Gardner was nominated for circuit judge in the Mayfield district.

Irvin Carter, a young farmer, died a few days ago at his home a few miles southeast of Lafayette, following an operation for appendicitis. He was 34 years old and a member of the Baptist church.

TEUTONS MAKE PROGRESS IN VAST SCHEME

Advance in All Directions To Cut Off the Russian Retreat.

VISTULA CROSSED AT WARSAW
Attack on Fortresses at Lovno and Ossowetz is Com-menced.

London, Aug. 9.—The Germans continue to advance in all directions in the efforts to cut off the Russian retreat from the Polish salient. They already are attacking the fortresses of Kovno and Ossowetz, obstacles they must overcome to reach the railway running from Warsaw through Vilna and Dvinsk to Petrograd.

They have taken the minor fortresses of Serock, at the junction of the Narew and the Bug, and have crossed the Vistula in the vicinity of Warsaw. Further south, General Woyski is advancing eastward, but Field Marshall Mackensen is being fought stubbornly, and apparently is making slow progress.

On the whole the daring scheme mapped out by the Germans as a grand sequel to the capture of Warsaw—the destruction of the Russian army—is unfolding itself slowly, as must be the case from its very magnitude. With three main railways, besides those built since the war, military circles here believe the Grand Duke Nicholas will extricate his Warsaw army. Events in the east, however, will continue to hold the attention of the world, for some time to come.

The Germans have gained minor successes in the Argonne forest, where the Crown Prince's army has been trying for weeks to find a weak spot in the French defences, but their effort to recover lost trenches on the Lingekopf, in the Vosges, is declared to have cost them dearly.

There has been heavy fighting in the Caucasus between the Russians and the Turks, but official reports are so contradictory it is impossible to say in whose favor it is going.

INJURED BY MOTORCYCLE

And Death Results From Accident After Three Days of Intense Suffering.

Herbert S. Owen, a well-known mechanic in the employ of the Mogul Wagon Co., died yesterday morning about 2 o'clock at his home, No. 1226 Twyman street. Death was due to gangrene, following an injury to one of his heels. On Thursday Mr. Owen was riding with a friend on a motorcycle, when the machine struck a chunk in the road and in some manner Mr. Owen's foot got caught in the machinery and his heel was cut. The injury was not considered of a very serious character, but on Saturday night blood poison developed and death resulted from the wound as above stated.

Mr. Owen was about 24 years old and leaves a wife and four small daughters. He was a member of the Methodist church. He was an Odd Fellow and was also a member of the Modern Woodmen of America and the order of Owls.

His funeral services will be held at his late residence at 2:30 o'clock this afternoon by Dr. Lewis Powell and the interment will take place in Riverside Cemetery, under the auspices of the Odd Fellows.

Died After Operation.
Irvin Carter, a young farmer, died a few days ago at his home a few miles southeast of Lafayette, following an operation for appendicitis. He was 34 years old and a member of the Baptist church.

TEUSDAY, AUGUST 10

ANNOUNCEMENT.

We are authorized to announce
J. SOL FRITZA candidate for Commissioner for
the city of Hopkinsville, subject to
the action of the voters of said city
in the Primary election to be held
Saturday, Oct. 16th, 1915, as provided
by section 3480 b, sub. sec. 6, Ky.
statutes.One outcome of the Pan American
conference over means of restoring
peace in Mexico was the dispatch of
Maj. Gen. Hugh L. Scott to the border,
presumably to confer with Gen.
Villa. The conference adjourned
Friday night to meet in New York,
probably this week.A "flying squadron" of Government
commercial scouts will prepare
the way for American invasion of
world markets heretofore dominated
by Europe. Plans have been com-
pleted by the Bureau of Foreign and
Domestic Commerce.The office of the port, the national
palace and a Haitian gunboat were
seized Friday by the United States
marines who have landed in Haiti.
Another regiment of marines will
sail from Philadelphia for the island
republic today.P. W. Wadsworth, of Texas, was
arrested in New York on the charge
of using the mails to defraud in con-
nection with the promotion of the
Cotton Growers' Co-operative Society
of Alabama.Summers Davis, prominent young
lawyer and a favorite in Louisville
society, was drowned in the Ohio
river late Friday while boating at the
Louisville Boat Club, five miles above
the city.Police were called in to aid in putting
down a threatened mutiny on board a German steamer interned at
Charleston, S. C.John T. Barnett, of Earlington,
was killed when his automobile
skidded and turned turtle.Webster county is planning a big
barbecue to boost the Dixie Bee Line
Highway.Emperor Francis Joseph, of Austria,
is sick in bed again with chills.

CHANGE ALLEGIANCE AT WILL

Nationality a Matter of Small
Moment in the Countries of
the Levant.Constantinople and the neighboring
regions have been the great scene of
quick-change cosmopolitanism.
"We naturally think of nationality
as being a matter of birth and race,"
says Sir Charles Eliot, "but in the
Levant it is regarded as a kind of
privilege which may be acquired,
lost or changed. No one sees any-
thing incongruous in one brother be-
ing an Englishman, a second a Belgian
and a third a Turkish subject.
On the outbreak of the Turco-Greek
war Hellenic subjects were placed
under certain disabilities which af-
fected their business. One of them
came to me and asked whether he
could not be made then and there a
British subject. He was distressed
to find it impossible; but a day or
two afterward I met him satisfied
and smiling. He had become a Ser-
bian, and all was right again."Tree Blossoms as Food.
The blossoms of the cassia tree
are depended on to a very large extent
for food by the natives of parts of India.Cosmopolitan New York.
No city produces newspapers in so
many different languages as New
York.LIVE
STOCK

BUILD UP THE HOME MARKET

Not Enough Attention Paid to Local
Needs by Many Breeders of
Pure-Bred Stock.Many breeders of pure-bred stock
fail to pay sufficient attention to their
local market. The excuse is often made
that the farmers near by will not pay
the prices a breeder ought to have for
producing high class breeding animals.
To the breeder located in a community
where the use of such stock has not
become firmly established this may be
true. It will be to the breeder's interest
to use his best efforts to educate
the men of his home community to the
value of this stock. It may be necessary
in the beginning to sell a breeding
animal occasionally for a little less
money than it might bring from one
familiar with its value. As it is demonstrated
to these men that good breeding
pays in dollars and cents they
will gradually become willing to pay
more nearly what animals are worth
for breeding purposes.During the past season owing to bad
roads and bad weather conditions
many buyers from a distance were
prevented from marketing. It has been
interesting to observe the instances
where the home market had been
systematically developed to such
extent that the offering was taken at
fairly remunerative prices in spite of
the absence of outside buyers. A successful
breeder of improved live stock
who endeavors to build up a home
trade in this way is a good business
asset in the community. In the course
of time the whole community will benefit
as a result of his work for live
stock improvement. Such men should
be given every encouragement pos-
sible.

GET MOST FROM SHORTHORNS

Cow Is Equal to Any Other in Pro-
ducing and Raising Bull Calf
and in Giving Milk.An Illinois writer in giving his rea-
sons for preferring the Shorthorn
breed of cattle says:1. I have fed steers of all the differ-
ent beef breeds, and while there is a
vast difference in the feeding qualities
of individual animals I have arrived at
the conclusion that as a breed I get
more growth, stretch and finish from the
Shorthorn than from those of other
beef breeds.2. The Shorthorn cow is the equal
of any other in producing and raising
a bull calf, and the superior of the
cow of any other beef breed as a
milker.3. The Shorthorn cow not only
raises a good calf but pays her own

Champion Shorthorn Bull.

way at the pail, which makes her the
ideal farmers' cow.4. When a small boy my father
gave me a Shorthorn heifer cow, and
as a result I have been breeding
Shorthorns for thirty-two years, during
which time I have owned registered
cattle of other breeds, but have
never found any good reason for dis-
carding the Shorthorns, but on the
contrary have discarded the others
and replaced them with Shorthorns.5. The Shorthorn is not approached
by any other breed for combined beef
and dairy purposes, and as in the
past will continue to outnumber all of
the beef breeds.

CANADA FIGHTS HOG CHOLERA

Regulations for Admission of Swine
From United States Are Very
Strict—Enforce Quarantine.(By H. PRESTON HOSKINS.)
Vaccination of hogs is not permitted
in Canada. A regulation of the
Canadian government reads as follows:
"The use of hog cholera serum
or virus, being considered a source of
danger, the importation, manufacture,
sale or use of such serum or virus is
prohibited."The regulations for the admission
of hogs into Canada from the United
States are very strict. Hogs that
have been vaccinated by the double
method cannot be admitted. Hogs
coming from localities in which there
has been cholera within the past six
months are refused entrance. Hogs
which are not excluded for these rea-
sons are held in quarantine for one
month at the Canadian border before
being allowed to go to their destina-
tion.

Terrible Train Of Troubles.

Lake Charles, La.—Mrs. E. Four-
nier, 516 Kirby street, says: "The
month before I took Cardui, I could
hardly walk. I had backache, head-
ache, pain in my legs, chills, fainting
spells, sick stomach, dragging feel-
ing, and no patience or courage."Since taking Cardui, I have no
more pains, can walk as I want to,
and feel good all the time." Take
Cardui and be benefited by the
peculiar herb ingredients which have
been found so efficient for womanly
ills. Cardui will relieve that back,
ache, headache, and all the misery
from which you suffer, just as it has
done for others. Try Cardui.—Ad-
vertisement.

ROAD BREAKER IS CIVILIZER

Man's Scale Is Very Correctly Tested
by His Attitude Toward Some
Obstruction in Road.The civilized man makes roads; the
savage does not. That is the safest
test of civilization.Among us in all communities are
individuals who are not really civil-
ized. They do not take any interest in
roads.A man's scale in civilization is very
correctly tested by his attitude toward
the stone which has rolled into the
road, or the tree which has blown

down across it, writes Herbert Quick

in Farm and Fireside. The man who

drives around the obstacle day after

day is one sort of man, the one who

stops his team and rolls or drags it

away is another. And a person pass-
ing along a road which he does notexpect to retrace, who removes the
obstruction for the sake of the stran-
ger who comes after him, responds toa very high test of civilization. He
feels socially.When the snow piles up in the road
the man who goes ahead and breaks
the path for others bears the burden
which he who has made progress al-
ways must bear. There is snow in
every road—to co-operation, to better
schools, to better business methods.
There must be road breakers for every
path.The road breaker is the great civi-
lizer.

DIRT ROAD IS THE CHEAPEST

Most Satisfactory Highway in Nine
Tenths of Territory—Big Objec-
tion to Macadamized Roads.The time may come when we can
make cement roads. They will cost
from \$5,000 to \$10,000 a mile and they
may be so smooth, if we learn to make
them properly, that the children liv-
ing on these lines of road can go to
school on roller skates, as they do in
some places down in Maryland.There may be some satisfactory
combination of sand and clay; but,
speaking for the prairie lands, the best
and the cheapest road we can get over
nine-tenths of the territory is the dirt
road. The more clay there is in it,
the better the dragged road will be.
There is no better road than the gum-
bo road, if it is properly dealt with.It is really a pity that the drag is so
simple and cheap. If it had cost \$25
or \$50, and was painted red, then the
farmers would think something of it.
The main reason why it has not come
into more common use is that it is so
cheap and simple in construction and
so easy to handle.Someone may ask: Why is it that
there was no objection to macadamized
roads twenty or thirty years ago?Simply because we did not have the
automobile. MacAdam, that Scotch-

man from the section where Secretary

James Wilson was born, was a genius.

He figured that by putting stone on
the road, the wheels of the wagon,
especially if broad tired, would gradu-
ally wear down these stones and fur-
nish a filler. He did a great service to
his country. But the automobile has
come in. It has no iron tires; hence it
makes no filler. On the other hand,
it sucks out the filler and throws it
out in the air. It pries the stones apart,
and then we have what is called a
"raveled" road, that is, a road cov-
ered over with loose stones, the mean-
est kind of a road to travel over. That
is the reason the macadam road fails
under modern travel.—Wallace's
Farmer.

Excellent Roadway in Colorado.

man from the section where Secretary
James Wilson was born, was a genius.

under modern travel.—Wallace's
Farmer.

Extremes to Avoid.

One of the important factors in
roadmaking is to control the moisture
content of the soil in making up the
roadbed. When the soil is dry it
crumbles to dust and when it contains

too much water it becomes mud.

These are two extremes to avoid.

Too Much Moisture on Top.

Trees should not be allowed to

shade the road as this keeps it too

moist on the surface after rains, so

that the surface becomes soft and

muddy.

These are two extremes to avoid.

SPECIAL TO WOMEN

The most economical, cleansing and
germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to
be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At Druggists. 50c. large box, or by mail. The Paxton Toilet Co., Boston, Mass.

Administration Building and Infirmary,
Hazelwood Sanatorium, Louisville

THIS building, with adjacent cottages, is the only place in Kentucky for the reception of any case of tuberculosis except for the Jefferson county institution, Waverly Hills Sanatorium and the little Jackson Hill Sanatorium at Paducah. White patients in all stages of the disease may here receive the essentials of treatment—namely, medical supervision, fresh air, rest and correct diet. The rates are \$12.50 per week. Any person interested in obtaining treatment here should address Dr. Oscar O. Miller, Resident Physician, Hazelwood Sanatorium, Rural Free Delivery No. 2, Louisville, Ky. The head nurse is Miss Catherine Hooe of Louisville.

Prominent physicians from all sections of the state comprise the medical advisory board, of which Dr. Ap Morgan Vance is chairman. F. A. Sampson is superintendent.

A Good Household Salve

Ordinary ailments and injuries are not of themselves serious, but infection or low vitality may make them dangerous. Don't neglect a cut, sore, bruise or hurt because it's small. Blood Poison has resulted from a pin-prick or scratch. For all such ailments Bucklen's Arnica Salve is excellent. It protects and heals the hurt; is antiseptic, kills infection and prevents dangerous complications. Good for all Skin Blemishes, Pimples, Salt Rheum, Eczema. Get an original 2-ounce 25c. box from your druggist. —Advertisement.

In the Fijian Islands.

In race the Fijians are a people of Melanesian stock, much crossed with Polynesians. They are dark in color, have a harsh skin, crisp hair, which is bleached with lime and worn in an elaborate mop, while their features are strongly marked, but not unpleasant. They are sensitive, proud, vindictive, boastful, savage, hospitable, and courteous. The Fijians are industrious, especially those engaged in agriculture. The value of the exports of sugar, pearl shells, beche-de-mer, copra, cocoanut oil, and cocoanuts has been steadily increasing of late years. The total export trade is now approximately \$5,000,000 per annum.

A Cough Remedy

That Relieves

It's prepared from the healing Pine Balsam, Tar and Honey—all mixed in a pleasant, soothng Cough Syrup called Dr. Bell's Pine-Tar-Honey. Thousands have benefited by its use, no need of you enduring that annoying Cough or risking a dangerous Cold. Go to your dealer, ask for a 25c original bottle Dr. Bell's Pine-Tar-Honey, start using at once and get rid of your Cough and Cold. —Advertisement.

Daily Thought.

What quarrel, what harshness, what unbelief in each other can subsist in the presence of a great calamity, when all the artificial vesture of our life is gone, and we are all one with each other in primitive mortal needs? —George Eliot.

OUR PUBLIC FORUM

VIII.—C. E. Schaff

On Railway Investments

President Wilson, recently referring to our railroad problems, said in part: "They are indispensable to our whole economic life and railway securities are at the very heart of most investments, large and small, public and private, by individuals and by institutions. * * * There is no other interest so central to the business welfare of the country, as this. No doubt, in the light of the new day, with its new understandings, the problem of the railroads will also be met and dealt with in a spirit of candor and justice."

When the first citizen of the land stresses the importance of understanding and dealing justly with the railroads, certainly the American plowman can venture upon a careful study of the problem. C. E. Schaff, president of the M. K. & T. railway company, when asked to outline the relation of the public to railroads investments, said in part:

"It may be said that the railroad world is encumbered with a lot of phantoms which exist only in the popular fancy. For instance, because there have been a few so-called 'railroad magnates' whose names have figured prominently in finance, many people have come to believe that the railroads of the country are largely owned by a few rich men. As a matter of fact nothing could be farther from the truth. Out of the colossal sum of twenty billion dollars of American railroad securities, less than five per cent is now, or ever has been, in the hands of these men who have figured prominently in the newspaper headlines—while the other 95 per cent is in the hands of over two million investors, large and small, who in many instances have put the modest savings of a lifetime into these securities in order that they might lay away a competency for old age. When, therefore, the value of these securities is depressed or perchance destroyed, the hardship is a hundred-fold greater upon thousands of every-day citizens, than upon the handful of millionaires, good or bad, who have figured prominently in railroad circles."

Hundreds of millions of dollars of the assets of our great life and fire insurance companies, savings banks, trust companies, educational and fiduciary institutions are invested in railroad bonds—and the moment, therefore, that the soundness of these bonds is called into question the financial solidity of these myriad institutions—directly affecting the welfare of millions of policy-holders and bank depositors—is gravely menaced. During the last several years, many millions of dollars representing depreciated values, have been charged on the books of concerns like those enumerated above. American railroads have become a vital part of the very wool and fabric of the nation. Their continued efficiency is absolutely essential to the smallest community in the land.

In blindly striking at the railroads our blows fall not merely upon thousands who have committed no wrong, but, in the last analysis, upon ourselves. We should remember how interdependent we have come to be in this mighty republic of ours—that each is in truth become more and more his brother's keeper, and that we need to act and think circumspectly, lest in our mistaken zeal we destroy those who, like ourselves, need whatever of this world's goods the toil and sweat of years has bequeathed to them."

Here's The Best

CONTEST

OF ALL

EVERY CONTESTANT A WINNER
AND NOBODY CAN LOSE

Trip To Mammoth Cave
Will Not Cost A Cent

The Kentuckian has put on a subscription campaign which began July 19, which every contestant will be a prize winner, in which the contestants can work together and help each other and all unite in a common purpose. The plan is a simple one and the proposition is that every lady or girl who secures a club of 20 subscribers to the Kentuckian at \$2 for a year's subscription, or a larger number of shorter term ones to make \$40, will be given a FREE TRIP to MAMMOTH CAVE, all expenses paid, occupying two days.

Trips to the Cave are always fascinating, especially to the young, and everybody desires at some time to see this greatest of all caverns, the one thing above all else that makes Kentucky a mecca for tourists the world over. Even those who have seen the Cave before find something attractive in visits again and again. The Cave is so vast, its wonders so great and its attractions so numerous that one never tires of inspecting its miles and miles of underground passages.

There is not a neighborhood in Christian or adjoining counties in which some young lady cannot in one day secure 20 subscribers who will pay for a year's subscription to the Kentuckian and the deed is done, and this wonder of the world may be visited without its costing her one cent. The rules of the contest will be easily understood and capable of no understanding.

Subscriptions May Be Sent In at Any Time
From Now Until September 15.

They may be for a year or fractional parts of a year to make up \$40 in each club. They may be for one year or more than one, not to exceed 5 years to any one subscriber.

Voluntary renewals in the office cannot be credited to clubs. The young ladies may secure rewards but must bring or send subscriptions in themselves.

Should any girl fail to collect a full club, she may transfer her strength to some friend, or by paying the amount necessary to complete the cost of the trip in cash, she may go on the same basis as the others.

The Contest Began Monday, July 19th And Will Close September 15th.

There will be no restrictions or limitations as to the territory. Get subscribers anywhere in or out of the county.

Only such payments on subscriptions as are made on or after July 19 will be included in clubs.

The contest will be conducted by the Business Manager of The Kentuckian and the names of those who desire to enter the contest for the trips offered will be given every possible assistance in getting up clubs.

In former contests many girls who did effective work in securing subscribers failed to secure awards, because others got more subscribers. This time every dollar collected represents a fixed value and every girl who gets up a club will be sure of the trip. The more the merrier. We would like to take 100 girls on this great outing.

WHO WILL BE THE FIRST?
CALL FOR A RECEIPT BOOK NOW AND GET
BUSY. SEE IF YOU CANNOT CINCH THE
TRIP BY ONE DAY'S WORK.

WINGS TWO IN GUN PLAY

Joe Elgin Shoots Eli Garnett
and John Wilsoid Near
City Sunday.

Joe Elgin, colored, shot and seriously injured Eli Garnett and John Wilsoid, both negroes, on Sunday afternoon about 6 o'clock on the farm owned by the Atkins Bros., about 3½ miles from town, on the Clarksville pike.

Garnett was sitting in a swing on the back part of the place, talking to Wilsoid, who is a boy of about 14 years, when Elgin came up and fired at him several times. Garnett was struck in the face and on the arm and a stray shot found lodging in Wilsoid's breast. A number of colored people were present at the scene of the shooting.

The shooting is thought to have been the result of a quarrel that had been existing for several days between the men. None of the bullet wounds proved fatal and both of the negroes are doing nicely.

Elgin made his escape immediately after the scrape and has not yet been located.

Luke McLuke Says.

When a man hates another man he goes around and tells everybody but the man he hates.

A rich man is often a poor husband.

The woman who spends all of her time trying to shine in society always gets mad when her nose gets the habit.

The fellow who remains in the hay and pounds his ear until noon usually spends the rest of the day whining that he can't get up in the world.

A man doesn't mind paying his beer bill, but it is different when his water bill comes in.

Start to praise a man and your audience will yawn. Start knocking a man and your audience will sit up and pay attention.

When a man can't make a living any other way he can always become a reformer and find plenty grousing to finance a society for the prevention of something.

The reason why a woman never succeeds when she marries a man in reforming him because she forgets to take a course of lessons in the art of charming snakes.

When he begins to notice that she talks too much, and she begins to notice that his breath smells of tobacco, the honeymoon goes out and hunts for a man who knows how to use a pulmo- or.

This is a queer world. In one end of a town a woman who has denied herself enough to eat so that the children might have milk for supper will pick up a piece of newspaper and see a big headline over the news that a woman in the other end of a town has just paid \$10,000 for a Pekingese poodle.

Your credit never gets so poor that you can't borrow all the trouble you are looking for.

The Potomac river is only 500 miles long, and in its lower course is rather an estuary than a stream.

OFFER OF PEACE MADE

Petrograd Newspaper Says That
It Was Made Through
King of Denmark.

WAS DECLINED BY THE CZAR.

Asserted Terms Were the Cession of Galicia While Germany Kept West Poland.

London, Aug. 8.—Reuter's correspondent at Petrograd transmits the following:

The Bourse Gazette learns from an unimpeachable source that the German emperor made an offer of peace to Russia last week, through the king of Denmark. The answer sent to the king stated that the question of peace negotiations could not be raised at the present time.

A dispatch to the associated press from Petrograd says:

The report that Germany had made peace proposals to Russia became known in official circles here several days ago and was freely discussed in the lobbies of the Duma, according to the Vechernye Vermya.

"We learn on good authority," says the newspaper, "that Germany through Denmark proposed to Russia a separate peace, Russia to receive Galicia while Germany would retain the western district of Poland. A representative of the foreign office categorically denied that there was the remotest possibility of any peace negotiations. In the lobbies of the Duma, the proposal was dismissed as unworthy of serious consideration."

State of Ohio, city of Toledo, ss.

Frank J. Cheney makes oath that he is a partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Cutarrh that can be cured by the use of HALL'S CATARRH CURE.

FRANK J. CHENEY.

DANCING MASTERS FAVOR CUTTING OUT "FANCY STEPS."

San Francisco, Aug. 9.—The National Association of Dancing Masters, which is in session at Berkley, declares that in favoring the simpler movements, it is endeavoring to take mathematics out of dancing.

"The general trend is toward comfortable dancing," declared Z. L. Hinman, of San Francisco, pres'dent of the association. "It is ridiculous to see middle-aged people studying the difficult steps of the Maxixe. The time is close at hand when the difficult steps will be as rare at a dance as are the old folks dances today."

NO CHANCE FOR THE BURGLAR

Valuables Are Safe in the Vaults of Offices of J. Pierpont Morgan and Company.

The world's cleverest cracksmen are on their mettle. They are defied by a safe behind the doors of which lie untold treasures, which can never be blown open. Even the most powerful lyddite shell, fired from a big gun, would have little effect, so far as opening the safe was concerned. This safe, which is really an impregnable vault, has lately been built in the offices of Pierpont Morgan & Co. of New York, and cost altogether \$200,000. Of this sum nearly half was expended on the door. The latter, circular in shape, is eleven feet six inches in diameter and forty-five and one-half inches thick. It is made of armor plate, the same as that used in the construction of modern battleships, and will withstand any attack. In spite of its size, so delicately is the door poised that it swings as nicely adjusted in its movements as the works of the finest chronometers. When closed there is no conceivable way in which to attack it. It is proof against tool or explosive, and when the door swings into its place not even the air is able to get in. This prevents the introduction of any explosive of a liquid nature. This wonderful safe door is locked by twenty five-inch plungers or bolts, each of which is controlled by combination locks, which in turn are controlled by a time lock having four movements, any one of which will permit the opening of the combination locks. Another remarkable vault has been completed in a bank in Toronto, Canada. It consists of a hollow cube made of hardened steel and cement, measuring thirty feet in each direction. This vault has two sections, the upper section being for the use of the public as a safety deposit vault, and the lower for the storage of the bank's currency and securities. A floor of solid steel separates the two sections. The vault is guarded by a circular steel door ten feet in diameter, three and one-half feet thick and weighing forty-one tons, which is opened and closed by electric motors. When all precautionary devices are set three different alarms are sounded by the slightest tampering with the doors.

HIGH PRICE FOR SONGBIRD

Five Thousand Dollars is Asked for the Canary-Bullfinch Called the "White Rose."

The recent international bird show has provided some astonishing facts and figures regarding the value of songbirds. There are nearly one hundred classes of canaries. That they can be Norwich or Lancashire, Border or Yorkshire, variegated, lizard, unflighted, clear, cross-bred, crested, self or foul, conveys very little to the average mind, but leaves one marveling at the variety of chirping little creatures whose feathers are every conceivable shade of yellow.

One marvels at the variety of birds that could be kept as pets. Flanches, linnets, redpolls, tomits, robins, wrens, stonechats, babbiers, redstarts, and long-tailed, short-tailed, wag-tailed, and created varieties of all of them in every size, from the minute humming bird to the plump scarlet cockatoo, all vie for popularity which up to the present has been the monopoly of the canary.

And these little birds are all quite cheap. A few dollars will buy most of them, but on the other hand \$2,500 would be asked for a gorgeous crimson bird of paradise, or \$5,000 for the canary-bullfinch "White Rose," the most expensive songbird in the world.

A Buggy Ride!

It seems a long time since a more appealing idyl has come to the attention of a jaded, gasoline-ridden public than the brief story of the two sailor lads who went buggy riding Sunday. They hired an old horse and buggy, that almost forgotten combination sacred to Sunday afternoons in the country during the golden era of the nineteenth century (survivals of this sort must of necessity be old), and with their pancake hats lying in the bottom of their quaint vehicle they jogged along contentedly toward White Plains.

That is all, so far as the printed plot goes; but one must not forget the apple blossoms they saw and sniffed on their leisurely way, the gentle May breezes from verdant May meadows which stirred their youthful locks caressingly, the welcome greetings from tree tops and barnyard and swamp, lost neither through speed nor throb of motor, which spoke to them of home.—Exchange.

Not Phoning to Fishes.

If you see a man leaning over the railing of a bridge intently watching the river, with a telephone receiver at his ear do not think that the man is trying to talk to the fishes or to a diver below the surface. He is probably one of the government's engineers measuring the amount of water passing under the bridge. This is done by lowering an instrument, known as a current meter, into the water at several points under the bridge to determine the speed of the water and by measuring the depth of the water at the same points.

Threats Explained.

Mrs. Eze—My husband got a letter today saying something dreadful would happen if he didn't send the writer a sum of money.

Mrs. Wye—My husband gets dunned for his bills, too.—Boston Transcript.

SENSATIONAL AND STUPENDOUS HIPPODROME SHOW

Greatest Acts of Vaudeville and Circus Booked For the Kentucky State Fair, Sept. 13-18

FERTILIZER NEEDS OF CROPS

Celery on Muck Lands Ordinarily Receives One Ton an Acre—Stable Manure is Unexcelled.

Dr. L. L. Van Slyke, of the Geneva station, recommends for early potatoes on good soils 500 to 1,000 pounds per acre of a 4-8-10 combination, and for the late crop about the same amount, but with a larger proportion of acid phosphate. Truckers sometimes apply as much as a ton an acre where large and early yields are required.

Cabbage, cauliflower and related crops are commonly treated with the so-called basic fertilizer, 4-8-10. For early crops nitrogen and phosphorus should be readily available, and 1,200 to 1,500 pounds an acre is not too much unless manure has been used very freely. Many growers apply a ton an acre. The late crop may well receive 600 to 1,000 pounds of the same formula, but with a smaller proportion of nutrients in

Celery Ready for Market.

immediately available form. Nitrate of soda gives splendid results with these crops.

For lettuce nothing is better than a soil that has been under heavy manuring for several years. Commercial fertilizers are not widely used by market gardeners for it. Muck land growers have used heavy applications of complete fertilizers, but the present tendency is toward lighter feeding, especially when it follows heavily-fed plantings of celery or onions.

Celery on muck land ordinarily receives one ton an acre of a complete fertilizer analyzing about 4-8-10. Some growers use a 5-7-12 formula and applications may run as high as two tons an acre when extremely close planting is practiced. Stable manure is used for home market gardens.

ANOTHER LARGE WHEAT CROP

Grain Should Be Stacked to Prevent Spoiling During Wet Weather and to Save the Straw.

Unless some unforeseen calamity should occur, the wheat crop this year will exceed the phenomenal crop of last year, and will probably be more than 700,000,000 bushels of winter wheat alone. This means that the threshing outfits, railroads, elevators etc., will be crowded to the utmost and a great part of the grain will stand in the fields for weeks. Therefore it should be stacked.

Stacking will save grain and straw which might otherwise be spoiled in wet weather.

Stacking will put grain through a complete sweat which will improve quality.

Threshing from the stack requires less help than shock threshing, which will equalize the cost of stacking.

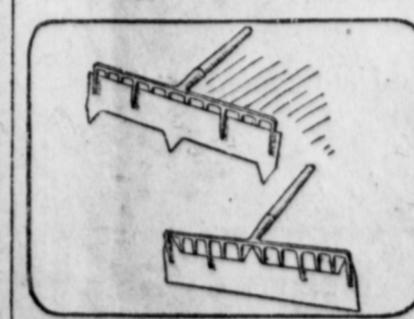

Stacking furnishes good storage, with absolutely no cost, which would prevent glutting the market at any time.

The grain must be removed for early working of the soil. Stacking makes it possible to plow following harvesting. Early plowing is one of the greatest factors in increasing the yield. Disking the land early is the next best thing.

MAKING SEED ROWS UNIFORM

Garden Rake With Attachment as Shown in Illustration Herewith Will Prove Satisfactory.

A good way to make drills or seed rows of uniform width and depth is to have an attachment for the garden rake as shown in the sketch, writes Bert W. Verne of San Diego, Cal., in Popular Mechanics. The device consists of a piece of tin or sheet metal

Marker Attachment on Rake.

having V-shaped projections on one edge the width of the rows. The other edge of the metal is inserted between the teeth on the rake. Thus it can be easily drawn over the garden bed to mark the rows. After the seed has been planted reverse the tin, and use it as a hoe for filling the row.

CITY MARKET HOUSE

EVERYTHING GOOD TO EAT AND ALL KINDS HEAVY GROCERIES FOR MR. FARMER

Our Big Store is chock full of China, Queensware, Glassware, Silver and Granite.

ALUMINUMWARE—Never before have we had such a splendid line to select from. We can please you in quality and price.

PROF. H. CLAY SMITH

Leaves Kentucky Sept. 1st, To Locate in Oklahoma.

Rev. H. Clay Smith, formerly of this city, but more recently of Louisville, has accepted the chair of Philosophy and Religious Education in Philip University at Enid, Oklahoma, and will also be pastor of the University Place Christian church of the same city.

Prof. Smith, as he is best known in this city, by reason of his long connection with McLean College, is a minister and teacher of unusual ability and effectiveness. He possesses rare gifts as an orator, not only as a preacher but as an after-dinner speaker and lecturer on a wide range of topics. His Hopkinsville friends wish him success in his new home.

After Tom Taggart.

The County Council of Marion county, in which Indianapolis is located, has made an appropriation of \$25,000 to defray the cost of the prosecution of National Committeeman Thomas Taggart, Mayor Bell and 100 others for alleged election frauds.

To keep abreast of progress and note not only the developments in science, invention and discovery, but even the tendencies toward change, is no small contract—even in war time. The August Popular Mechanics Magazine, however, contains 272 articles, covering a wide range of subjects, and 376 illustrations, many of which are most unusual. Thirteen consecutive pages of views are used to depict the conditions in the European war zone. The pictures are impartially chosen and show many phases of the great conflict. An ar-

ticle on "Handling Transatlantic Mails in War" tells how this important public utility has been hampered, and what means are taken to safeguard the service.

Besides the war pictures, there are a number of fine page views and groups of views in the August Magazine. One of these shows a young airman in midair, dropping a wreath to the waters of San Francisco Bay at the point where Lincoln Beachey lost his life.

Weak, Cold Spells.

Wilmington, N. C.—Mrs. Cora L. Ritter, of this place, says: I used to have headaches, and blind dizzy spells, and weak cold spells went all over me. I had different doctors, but they were unable to tell me what was wrong, so I began to take Cardui. I am now all right, in good health, and better than I have been for 10 years." Cardui is a remedy for women, which has been helping sick women for nearly a life time.

You can absolutely reply upon it.

Other people have done the testing and you should profit by their experience. Cardui has benefited a million women. Why not you? Begin taking Cardui today.—Advertisement.

Disagreeable Calomel is Yielding to Pleasant Liv-Ver-Lax.

Physicians generally agree that the nauseating, unpleasant effects of calomel are due to the undesirable violent action it has on the system. For a long while various substitutes have been tried, but it was only recently that the really wonderful remedy, LIV-VER-LAX was prepared successfully by L. K. Grigsby.

LIV-VER-LAX has all the good, and none of the bad effects of calomel. It is a necessity in every home, always being ready to cleanse the sluggish liver and bile clogged system, with no unpleasant after effects.

LIV-VER-LAX is guaranteed to give satisfaction, or your money will be immediately refunded. Insist on the original bearing the likeness of L. K. Grigsby. For sale in 50c and \$1 bottles at L. L. Elgin's and Anderson-Fowler Drug Co. Incorporated. Advertisement.

GOOD MEALS NOT FREQUENT

Fr. Brown, in Dissertation on His Own Excellence, Admits He Does Not Smoke Many Cigars.

In the lobby of a hotel they were talking about equivocal speeches when Henry Sydnor Harrison, the author, was reminded of a little incident along that line.

At a dinner party somebody broached the subject of small vices. A party named Brown broke in with dissertation on his own excellence.

"Of course, I am not criticizing anybody," he said, "but personally I never drink, swear or indulge in habits of that kind."

"But, Mr. Brown," interjected one of the company, "you certainly smoke, don't you?"

"Yes, I like a cigar after a good meal," admitted Brown, "but I suppose that on an average I don't smoke more than once a month."—Pittsburgh Chronicle-Telegraph.

Friendly Tip.

The chronic bore stopped the minister on the sidewalk.

"By the way, parson," he began, "my daughter has a project on foot—"

"Excuse me," interrupted the good man, "but I'm in a hurry this morning. Tell your daughter to consult a chiropodist."

Both Barbarous.

"There is something about college students that reminds me of Indians," remarked the thoughtful thinker.

"What is it?" asked the dense party.

"One can't distinguish between their songs and their yells," answered the t. t.

Elopers Don't Fly Yet.

Patience—This paper says elopements are prevented in New Guinea by compelling eligible girls to sleep in the trees. The ladders are removed after they retire.

Patrice—Evidently the aeroplane hasn't reached that country yet.

Fixing the Limit.

"But," queried the father of the only girl, "are you in a position to support a girl?"

"Who said anything about supporting the family?" retorted the young man. "I'm only figuring on supporting your daughter."

A Flareback.

"This town is a dump," declared the new arrival in Plunkville. "Ain't it, now?"

"Maybe so," responded the depot lounging, "but we can't keep the railroad from dumping here."—Louisville Courier-Journal.

THE FISHING CRAZE.

I notice that your garden doesn't look very promising this year."

"No; every time my husband got to digging in it he found worms, and they always reminded him of his fishing tackle."

How to Add to It.

"You have sent for me, madam?" said the lawyer.

"Yes, my husband says I must cut down expenses, and I want your advice as to how I can best do it."

Various Belts.

"The belt worn by Napoleon shows that his girth was 42 inches. Some belt, eh?"

"Yes, but not a circumstance to the belt that Wellington gave him."

Sufficient Reason.

"Hawker—What is your reason for thinking Hawker isn't a gentleman?"

Nowit—His persistency in declar-

WAR!

HAS the whole world gone stark mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armour glistening just because Russia wanted to show her love for the little brother—Servia?

Tease aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what a slim, yet desperate, excuse the sacred lives of millions may be sacrificed. Read the history of the past one hundred years, as written by one of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give to you

FREE!

Duruy's History of the World

Four splendid cloth volumes, full of portraits, sketches, maps, diagrams

Today is the climax of a hundred years of preparation. Read in this timely, authoritative, complete, AND THE ONLY CONDENSED classic world history—of which over 2,000,000 copies have been sold in France alone—just what has taken place in the inner councils of Europe during the past one hundred years. Read in these entrancing pages how Russia has for years craftily been trying to escape from her darkness to get a year-round open port, with its economic freedom.

Read how Germany and Austria, fearful of the monster's latent strength, have been trying to checkmate her and how they have pinned all in this last, supreme stake.

The Lesson of the Past

THIS master of the pen shows you the glory that was Greece's and the grandeur that was Rome's. He guides you through the Middle Ages, the picturesque old days of feudalism and the crusades; through the Renaissance up to contemporaneous history, which Prof. Crozier completes in brilliant manner. In the story of the past lie the secrets of today. And you will understand them when you get the Review of Reviews for a year—for the Review of Reviews will give you a sane interpretation of the events that are taking place with such rapidity. It is not enough to read the daily news reports. Youability to comprehend conditions, and to discuss them reasonably, is a tremendous factor in the meaning and the "reason why" of events. In your mind and soul bring order out of chaos—and the Review of Reviews will do it for you.

Get the REVIEW of REVIEWS for a Year

Send the coupon only. It brings the whole set—four volumes—charges prepaid—absolutely free. All we ask is that after you get the books you will send us \$25 cents for shipping and \$1.00 a month for three months to pay for the Review of Reviews.

It is not worth more than you pay for books and magazine together, send them back at our expense. Be prompt. The books will remain for three months for three months for shipping and \$1.00 a month for three months to pay for the Review of Reviews.

For cash with order send only \$1.00 and we will pay shipping charges.

The beautiful 3/4 leather set costs only a few cents more. For a set of this luxurious binding, charge 3 months above to 5 months, or send \$5.00 cash in full.

Unusual Offer To Our Readers.

For a limited time, and subject to withdrawal after 30 days, the well known publishing house of the J. B. Lippincott Company, Philadelphia, founded in 1792, offers to the readers of this paper a 12 months' subscription to "Lippincott's Magazine" and a year's subscription to the Kentuckyian, both for \$3.00. This is the price of a twelve months' subscription to "Lippincott's" alone. Additional to obtaining every issue of this paper for a year, our readers will receive in "Lippincott's," 12 great complete novels by popular authors, 105 short stories, crisp, entertaining, original 45 timely articles from the pens of masters, and each month some excellent poems with the right sentiment, and "Walnuts and Wine," the most popular humor section in America. To obtain this extraordinary offer prompt action is necessary. Remit to J. B. Lippincott Company, Washington Square, Phila., Pa.

NURSES NEEDED

WILL RAZE TOWN.

Several Apprentices Can Now Get Places at Jennie Stuart Hospital.

Mrs. Wanda Williams is on the lookout for some young women to begin the course taught in the Jennie Stuart Memorial Hospital Training School for nurses. Mrs. Williams, superintendent of the hospital, has recently graduated several nurses and all of them at once found all of the work they could do. In fact the supply of local nurses is hardly ever equal to the demand and many are brought from other cities from time to time.

The usual charge by trained nurses is \$25 a week and traveling expenses, board and lodging. This one of the most lucrative employments open to women, but every young woman is not qualified by nature to make a trained nurse. Those who are adapted to the work are required to take a course of three years before a diploma as Registered Nurse is issued to them. The apprentices, as they are called, live in the hospital and are given work enough to support themselves while studying. Any young women desiring to take up this line of work should see Mrs. Williams at the hospital.

Gen. Tracy Dead.

Gen. Benjamin F. Tracy, who was President Harrison's Secretary of the Navy, died of paralysis in New York Friday, in his eighty-fifth year, after a period of unconsciousness lasting nine days. General Tracy's death followed a fight for life that had amazed the physicians at his bedside. Only his extraordinary vitality had kept him alive for the better part of the past week.

Mason-Bell.

A marriage license was issued Saturday to Deller Mason and Miss Effie Bell, of the Haley's Mill neighborhood.

DR. BEAZLEY

Got The Same Letter.

Two men with the same name and both members of the same club found a letter in their box at the club and the wrong man opened it first. It was just a little dun from a tailor, who threatened to do everything but murder. He knew the missive didn't belong to him, so he put it in the box.

The next night the wrong man and the right man happened to come to the club at the same time. Both went to the letter box, the right man reaching it first. The wrong man stepped back because he didn't want to embarrass the right one.

But not he; he was there with the nerve. The right man read the epistle over very carefully twice. Then he tore it into bits, which he tossed carelessly into nearest cuspidor, with a deprecating smile. "Poor little girl," said the right man. "How she love me."—New York letters to Pittsburg Dispatch.

The old fashioned youth who believed that women were all built alike now has a son who knows a corn fed shape from an excelsiorized one.

Tuberculosis Victims.

Wayne Westbrook, of Daviess county, died at the Western State Hospital Aug. 5, of tuberculosis, aged 30 years. He was received here about two and a half years ago. Burial took place in the hospital cemetery.

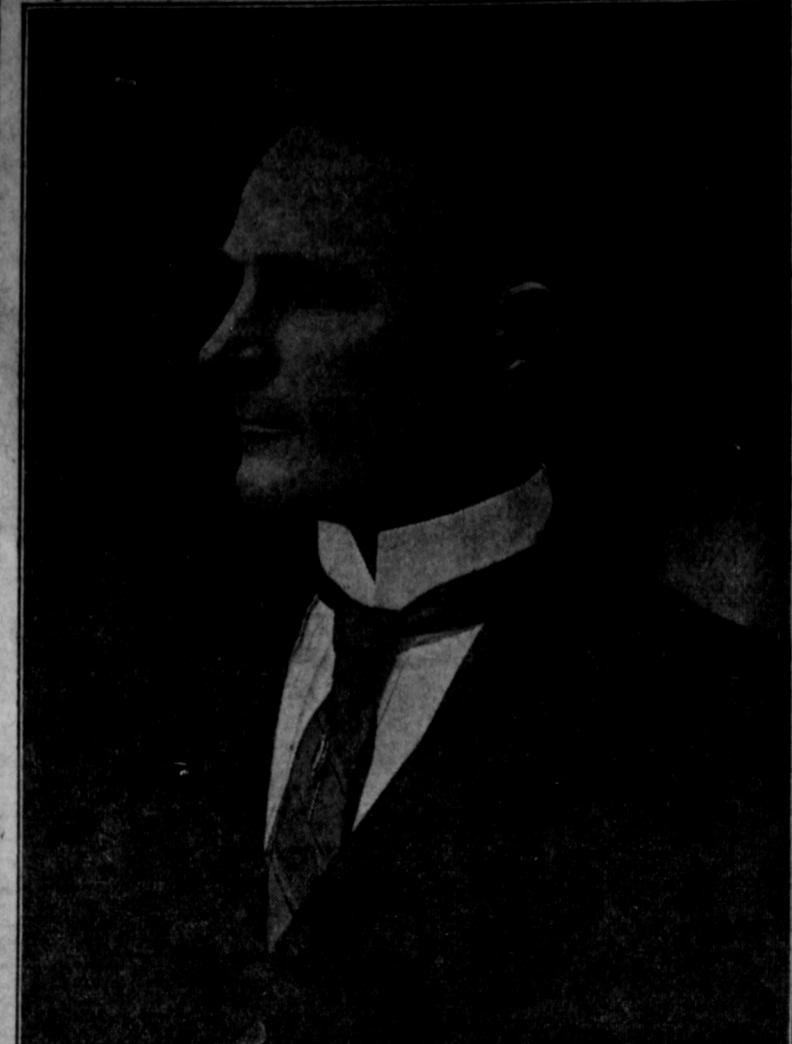

Nancy Alvin, a patient from Livingston county, died the same day of the same disease, aged 37 years. Interment in the hospital burying ground.

Kill Two Americans.

Brownsville, Tex., Aug. 6.—Mexican outlaws raided the village of Sebastian, 37 miles north of here, killing two men. United States cavalrymen and posses of citizens have gone in pursuit. The men killed were Al Austin, president of the Sebastian Law and Order League, and his son, Charles.

Eve as an Inventor.

YOUNG PREACHER

MRS. JAMES A. M'KENZIE

Filled The Pulpit of The First
Baptist Church Sunday.

Is Stricken With Paralysis
Her Home at Edgerton.

Calvin M. Thompson, Jr., preached at the First Baptist church Sunday morning, in the absence of his father, the pastor. The young man is a theological student and is at home for the summer. He preached at the First Baptist church in Paducah August 1st and recently carried on a revival meeting at Otter Pond, Caldwell county.

He gives promise of being an earnest and successful young preacher, a worthy son of a distinguished father.

Premier's Daughter.

Marriages have increased fifty percent since the beginning of the war. Among the prominent marriages announced for the near future is that of Miss Violet Asquith, daughter of the Premier, who will wed Maurice Bonham-Carter, the premier's private secretary. The marriage was to have been solemnized on July 27, but was postponed owing to the illness of Miss Asquith, who contracted typhoid fever while nursing her brother, an officer under Sir Ian Hamilton in Egypt. The wedding will take place as soon as Miss Asquith has recovered.
